

[Listen: Paul Cunningham, CISO, Veterans Affairs](#)

Season: 2

| Episode: 3

How the nation's largest health care provider manages security.

Tue, 10/22/2019 - 11:51

With the Department of Veterans Affairs' nationwide footprint, much consideration goes into its security posture. CISO Paul Cunningham discusses his risk-based approach to securing the agency's data and even touches on how his background as a naval safety aviator impacts his work today.
