

ThunderCat and NetApp's Data Management Approach

Partner Content

A multi-cloud environment can help government achieve greater efficiencies in data management practices.

Mon, 02/10/2020 - 15:51

Jim Cosby and Randy Pierce
Deputy CTO and Senior Cloud Architect

NetApp Deputy Chief Technology Officer Jim Cosby and ThunderCat Technology Senior Cloud Architect Randy Pierce discuss the joint strategy behind solving some of government's most pressing data management concerns, including a look at the "Data Fabric" technology and the benefits of hybrid and multi-cloud environments.
