

[Andrea Norris, CIO, National Institutes of Health](#)

Season: 2

| Episode: 10

GovCast talks with the leader supporting scientific research and discovery through information technology.

Tue, 06/18/2019 - 10:39

Andrea Norris discusses the technology efforts at play in managing the National Institutes of Health's mass amount of data across its research community. With extensive backgrounds at NASA and NSF, Norris also advocates for more women in government leadership.
