

Protecting Point of Care Privacy

VA CISO Paul Cunningham, National Cancer Institute CIO Jeff Shilling and NewWave Director of Infrastructure & Cloud Architecture Johnathon Brett talk protecting point of care privacy through collaboration and data interoperability.

Fri, 07/19/2019 - 14:37

With the increased need for data interoperability, how can government agencies and industry work together to ensure continuous point of care privacy for the individuals they serve and the data and systems they maintain?

- Paul Cunningham, Chief Information Security Officer, Veterans Affairs
- Jeff Shilling, Chief Information Officer, National Cancer Institute
- Johnathon Brett, Director of Infrastructure & Cloud Architecture, NewWave

Moderator:

- Michael Hoffman, President, GovernmentCIO Media & Research
