

[How NSF is Tackling an Evolving Workforce](#)

The Career Compass Challenge is one way the agency is hoping to leverage advanced technology.

Tue, 09/10/2019 - 11:27

Dorothy Aronson
CIO & CDO

National Science Foundation Chief Information Officer and Chief Data Officer Dorothy Aronson talks about the agency's Career Compass Challenge ahead of announcing the winners. The initiative is to modernize the American workforce and create a market for technology solutions that will help employees plan for changing careers and for reskilling the workforce.
