

[Listen: Jothi Dugar, CISO, NIH Center for Information Technology](#)

Season: 2

| Episode: 22

A holistic leadership approach is key to driving innovation and managing a diverse workforce.

Wed, 09/25/2019 - 13:10

Jothi Dugar discusses the importance of bringing a well-rounded and holistic approach to leadership positions despite the technical nature of working in IT. Dugar believes living by design will ensure great time management and work-life balance, all of which are key to promoting innovative and advance work environments for some of the National Institutes of Health's most critical IT efforts.
