The Importance of Arts in STEM Education
Toward Tech Literacy

Congressional leader advocates for early education in technology for government's future IT workforce.

Fri, 10/18/2019 - 11:14

Representative Suzanne Bonamici (D-OR) discusses her top tech priorities toward empowering the next generation of government IT workers. Initiatives include advocating for widespread education in science, technology, engineering and mathematics (STEM) plus the integration of arts — through efforts like the Congressional App Challenge. She is co-founder and co-chair of the STEAM Caucus and also serves on the House Committee on Science, Space, and Technology and Committee on Education and Labor.
