The electronic health record initiative is progressing toward the Nellis wave next year.

Bill Tinston Briefs Progress With MHS Genesis Rollout

Tue, 10/22/2019 - 09:23

Bill Tinston
Program Executive Officer

The program executive officer for MHS Genesis at the Defense Health Agency reflects on MHS Genesis' Travis wave and the path ahead. The joint program between the Defense Health Agency and the Department of Veterans Affairs is intended to create one centralized patient record for the lifespan of soldiers and their families.
