Listen: Oki Mek, Senior Advisor to CIO, HHS

Season: 2  
| Episode: 7  

HHS is making strides in innovating its cybersecurity posture through its approach to recurrent neural networks and beyond.  
Oki Mek, Senior Advisor to CIO, HHS  
Tue, 11/26/2019 - 14:29

Oki Mek discusses his priorities in his new position at the agency, including automating the authority to operate (ATO) process, educating the workforce on cybersecurity hygiene, the importance of blockchain and why innovation is not always about the technology.
