

## [Listen: Francisco Pereira, Director, NIMH's Machine Learning Team](#)

Season: 3

| Episode: 3

Helping researchers answer most pressing questions in health advancements with machine-learning.

Wed, 02/05/2020 - 10:46

The National Institute of Mental Health's machine learning team is guiding researchers with the best practices for using the technology, particularly within the section on functional imaging methods. We learn about the lead behind this team, Francisco Pereira, his passions for health care and for helping health researchers.
