

[HHS Deputy Secretary Emphasizes Interoperability, Emerging Tech](#)

Deputy Secretary Eric Hargan explained how these initiatives will carve the path forward for the agency.

Mon, 01/13/2020 - 13:20

The deputy secretary highlighted that moving toward EHR Interoperability and moving forward with AI, mobile application and other modernized tools will help reduce end-user provider burden. Taking the reins on data-driven initiatives will help the agency realize these goals.
