

Panel: Data Science and Analytics in Health IT

Government health care leaders will discuss the opportunities and challenges presented by artificial intelligence, data analytics and robotic process automation.

Mon, 01/13/2020 - 13:31

Technology and health care leaders from the Defense Department, Centers for Medicare and Medicaid Services, National Institutes of Health and CVP spoke on Feb. 11 at GovernmentCIO Media & Research's Digital Health CXO Tech Forum at the International Spy Museum.

Topics for the panel included human-centered design, artificial intelligence, emerging technologies, biomedical data, data science and analytics.

Speakers include:

- Misu Tasnim, Executive Director of Digital Services, CMS
- Col. Thomas Cantilina, Chief Health Informatics Officer, Military Health Systems, DHHQ

- Dr. Brenda Blunt, Director, Health, CVP
- Lawrence Tabak, Principal Deputy Director, National Institutes of Health
