Approaching IT Like Logistics: DHA CIO's Take

Season: 3
| Episode: 21
The agency's tech efforts impact 9.5 million beneficiaries around the world.

Pat Flanders, CIO, Defense Health Agency
Wed, 07/15/2020 - 13:37

A U.S. Army veteran with a previous interest in the medical field and having a few successful various initiatives throughout his career at DOD at large, Defense Health Agency CIO Pat Flanders has a personal approach to the systems he manages for the agency. Flanders provides a close look at how he's approaching IT oversight of the health care delivery systems that serve the 9.5 million beneficiaries around the world under the Military Health System.
