Listen: NASA CIO Talks Importance of Workforce Support, Tech Modernization

Technology at NASA has many impacts beyond space exploration.
Jeff Seaton, Acting CIO, NASA
Wed, 10/21/2020 - 11:09
With a NASA career that began with an interest in robotics and prior role as CIO at Langley Research Center, Acting CIO Jeff Seaton has a deep understanding of what it means to support the agency's numerous research and mission programs. Seaton discusses the importance the cloud has as the agency faces exponential increases in data collection and how the agency impacts daily life aside from space exploration.

This episode is sponsored by Dell Technologies, TVAR Solutions and Carahsoft.
