Listen: Ensuring Participant Diversity in COVID-19 Vaccine Trials

Season: 2
| Episode: 1

Modern technology has the power to overcome clinical trial participation challenges. Dr. Jim Kublin, Executive Director of Operation Programs, CoVPN
Tue, 11/17/2020 - 15:08

The National Institute of Allergies and Infectious Diseases is leading COVID-19 clinical trial efforts through a large-scale network, called the COVID-19 Prevention Network (CoVPN). Dr. Jim Kublin, the executive director of operations program for CoVPN, shares more about this government-funded clinical trials network for COVID-19, the importance of diversity in research, and how tech is rapidly advancing medical discoveries.
