Infrastructure as Code Panel with Army, VA, USCIS Leaders

Sat, 12/05/2020 - 10:59

When building hardware for software systems, infrastructure as code (IaC) provides repeatable, predictable processes. Leaders discuss the impact of IaC on software development and delivery, and where it falls within DevSecOps efforts at their agencies.

Speakers include:

- Rob Brown, CTO, Citizen and Immigration Services
- Col. Charles Destefani, Deputy CDO, Air Force
- Ty Schneider, Systems Engineer, VA
