Listen: IT Modernization, Pandemic Plans Pave Way for Crucial Support in Indian Health

Season: 4
| Episode: 3

Technology can bridge the health divide among certain tribal groups in rural areas. Mitchell Thornbrugh, CIO, Indian Health Service
Tue, 12/08/2020 - 10:56

Indian Health Service CIO Mitchell Thornbrugh describes the opportunities that technology brings to Native Americans and Alaska Natives, who reside in geographically dispersed locations and are susceptible to ongoing health disparities. With a unique funding challenge at the agency, Thornbrugh advocates for improved digital support and awareness of health challenges.
